Information for  
MASTER STUDIES in MOLECULAR BIOLOGY  
with the specialization in MOLECULAR MEDICINE  

October 2021

Prof. Barbara Hamilton  
Studienprogrammleiterin Molecular Biology

Consultation hour: Thursday, 14:00 – 16:00

Dr. Bohr-Gasse 9 / Ebene 6 / Zi. 6.111  
1030 Wien

Tel.: 01/4277-52814  
Fax: 01/4277-50199  
e-mail: barbara.hamilton@univie.ac.at

Prof. Erwin Ivessa  
Coordinator Molecular Medicine

by appointment

Dr. Bohr-Gasse 9 / Ebene 2 / Zi. 2.118  
1030 Wien

Tel.: 01/4277-61805, 01/4277-61822  
e-mail: n-erwin.ivessa@meduniwien.ac.at
Notice

This presentation is intended as **general information** for the Master’s students in Molecular Biology with the specialization in “**Molecular Medicine**”.

**However:**

Because of the current situation due to the coronavirus pandemic, definite infos cannot be given in each case, since nobody can say, what is going to come and when we will be back to normal.

**Status of information:**  **October 12, 2021**

**Some general notes:**

- The University of Vienna is determined to find ways that students will not experience disadvantages from the current situation.
- Reasonable forbearance / fairness will be exerted concerning **deadlines** due to the Covid-19 situation.
- **Lectures** will be given in a “hybrid” format, or via distance learning (video).
- Please note the **announcements of the university** and also check **u:space / u:find** and **moodle** regularly.

  *Thank you for your understanding!*

https://studieren.univie.ac.at/lernen-pruefen/vor-ort-studieren/#c716142
Information for

MASTER STUDIES in MOLECULAR BIOLOGY
with the specialization in MOLECULAR MEDICINE

October 2021

- VO Molekulare Medizin 2 (301586-1 only in WS)
- Wahlbeispiele (Elective courses) in Molecular Medicine (301858-1, 301859-1)
- Projekt- und Versuchsplanung (PVP) (301706-1 only in WS)
- Masterarbeit / Großpraktikum
General information:

No fixed office hour / consultation hour
Preferred interaction with students: e-mail
Please, use ONLY your Uni Wien student’s e-mail address when
contacting the university (SSC, SPL, me, …).
Personal meetings possible, but ONLY by appointment.

Due to the large number of e-mails I obtain, the processing /
responding time may be rather long (in the range of weeks).
I thank for your understanding and patience!

NO mere confirmation of the receipt of e-mails!

Rule for repeated sending of e-mails:
Inquiry is OK! **BUT:**

**NEVER EVER** send **attachments** a second time!

If a matter is **urgent:**
Please, write **URGENT** into the subject line!

Please, be **specific** in your mails!
Where do you find relevant information: [http://molekularebiologie.univie.ac.at/](http://molekularebiologie.univie.ac.at/)

This presentation will be uploaded here:

(Almost) exclusively in English!
301586-1 VO Molecular Medicine 2 - Molecular Aspects of Medical Research (MolMed2; “Ring-Vorlesung“): The lectures

- 2-h VO (3 ECTS); mandatory lecture course in MMB IV-1
- In block format in WS: November / December,
  FR afternoon
  14:00 – 15:30 AND 16:00 – 17:30
- Per 2-h unit there is one lecturer; 12 in total
- In German and/or English (depending on lecturer) → Exam is also in German and/or English
- Lectures will be neither in presence nor “hybrid“
- Lectures may be
  - pre-recorded
  - presented live without recording
  - presented live with recording
- Information on how the lectures will be presented → see moodle (at short notice)
- ppt slides will be made available via moodle (if there is a recording, this one too)
- Students get access to moodle once registered to the VO (with some delay)
Information about the way, how the lectures will be given, will follow at short notice 
( Hybrid lecture, distant lecture live or pre-recorded)

Materials / Information etc.: https://moodle.univie.ac.at/

301586-1 VO Molecular Medicine 2 - Molecular Aspects of Medical Research (MolMed2; “Ring-Vorlesung“): The exam

- Exam:
  - Required: Registration in univis / u:space !!
  - written; exam dates: January, March, June, October
  - 6 questions (or set of questions) → from 6 different lecturers !!!
  - Duration: 90 min (15 min/question)

MolMed2 (in WS) can also be attended before MolMedI (in SS), and also the MolMed2 exam can be taken before the MolMed1 exam.
301586-1 VO Molecular Medicine 2 - Molecular Aspects of Medical Research (MolMed2; “Ring-Vorlesung“):  Grading of the exam

- Total grade = arithmetic mean of the 6 grades for each question
- To obtain a positive grade, BOTH of the following two criteria have to be fulfilled (initially, each question gets a separate grade):
  - A minimum of 3 out of the 6 questions have to be graded positive (4 or better).
  - The arithmetic mean of all grades in the exam has to be SMALLER than 4,5 sein.
- From this it follows that a minimum requirement is:
  3, 4, 4, 5, 5, 5

_Urgent advice:_ Attend the MolMed1 and MolMed2 lectures and take the exams as early as possible in your Master’s studies!
Die Masterprogramme in der Dr. Bohr-Gasse

Die Master (120 ECTS)

- MMEI - Molekulare Mikrobiologie und Immunbiologie
- MMB - Molekulare Biologie
- MGE - Genetik und Entwicklungsbioiogie
- MMI - Mikrobiologie und Immunologie

Die Modulgruppen

- 30 ECTS (APM) Altern. Pflichtmodule
- 30 ECTS (PMW) fachspezifische Pflichtmodule Wahl
- 30 ECTS (WZB) Wissenschaftliche Zusatzqualifikationen der Biologie
- 30 ECTS Masterarbeit

Why Wahlbeispiele (Elective courses)? (I.)

• Get to know labs
• Get acquainted with techniques in biochemistry, molecular and cell biology etc.
• Help for choice of a lab where to perform the Master’s thesis
• An exercise for performing scientific work and for scientific writing before the Master’s thesis
• When? → From the beginning throughout the Master’s studies, but ideally BEFORE starting the Master’s thesis
• NO retroactive acknowledgment of parts of the Master’s thesis as a Wahlbeispiel → see Großpraktikum (3 months / 15 ECTS)
  In case of retroactive registration of the Wahlbeispiel: acknowledgment possible ONLY as WZB
• Has to be a scientific „mini-project“
• Generally should be an unpaid internship
• No “lab manager“ or routine work (10,000 measurements of the same kind…)

Infos on MolBio website:

http://molekularebiologie.univie.ac.at/formulare/wahlbeispiele/
Why Wahlbeispiele (Elective courses)? (II.)

- Registration of Wahlbeispiele in univis / u:space possible, but not mandatory
- NO "Points“ business !!! NO restrictions as to the numbers of places !!!
- Detailed procedere → see below! And also here:
  http://molekularebiologie.univie.ac.at/formulare/wahlbeispiele/

- Duration: “One Wahlbeispiel“ = 4 weeks (5 ECTS)
  → Eligible for MMB IV-3 (max. 10 ECTS) or MMB IV-4 (max. 5 ECTS)
  → Minimal variant: 2 Wahlbeispiele of 4 weeks each (2 x 5 ECTS) in two different labs
  → Maximal variant: 3 Wahlbeispiele of 4 weeks each (3 x 5 ECTS) in two different labs
- 2 Wahlbeispiele (8 weeks) in the same lab possible? → YES!

EXCEPTION:
NOT, if in the same lab the Master’s thesis (6 months) AND the Großpraktikum (3 months) are performed. In the latter case only 1 Wahlbeispiel (4 weeks, 5 ECTS) can be acknowledged.
Different modes for performing Wahlbeispiele

MoMed_Wahlbeispiele / Elective Laboratory Courses

Labors (Arbeitsgruppen) / Labs (Groups): A, B, C, ...

Definition: 1 Wahlbeispiel = 4 Wochen Forschungspraktikum (5 ECTS)
1 Elective Laboratory Course = 4 weeks Research Practical (5 ECTS)

Mindestanforderung: 2 Wahlbeispiele in 2 verschiedenen Labors.
In einem dieser Labors kann dann auch Großpraktikum
und Masterarbeit gemacht werden.

Minimal requirement: 2 Elective Laboratory Courses in 2 different labs.
In one of these labs also the Großpraktikum and the Master Practical
can be performed.

MMB IV-3: 1 (Pflicht) oder 2 Wahlbeispiele
MMB IV-4: 1 Wahlbeispiel (Pflicht)
MMB IV-3: 1 (mandatory) or 2 Elective Laboratory Courses
MMB IV-4: 1 Elective Laboratory Course (mandatory)

| Wahlbeispiel 1 (Elective Laboratory Course 1) | A --> MMB IV-3 | A --> MMB IV-3 | A --> MMB IV-3 | A --> MMB IV-3 |
| Wahlbeispiel 2 (Elective Laboratory Course 2) | B --> MMB IV-4 | A --> MMB IV-4 | A --> MMB IV-3 | A --> MMB IV-3 |
| Wahlbeispiel 3 (Elective Laboratory Course 3) | no | no | B --> MMB IV-4 | B --> MMB IV-4 |
| Großpraktikum | A, B oder C | A | B oder C | A |
| Masterarbeit (Master Practical) | A, B oder C | A | B oder C | A |

OK ? | OK | NO! | OK | NO!
Important information for courses in “Molecular Medicine“ (MolMed) 
Within the Master’s studies in “Molecular Biology“:

301858-1 UE Wahlbeispiel (Elective course) Molekulare Medizin - Teil 1
301859-1 UE Wahlbeispiel (Elective course) Molekulare Medizin - Teil 2
301706-1 SE Projekt- und Versuchsplanung (PVP) über ausgewählte Themen
der Molekularen Medizin (offered and acknowledged only in WS)

“Wahlbeispiele MolMed“ (Elective courses; UE):

• Where?
  ❖ First priority: in the groups at the Center for Medical Biochemistry as well
    as groups of lecturers of MolMed1 and MolMed2 (in SS: 301585-1 VO
    Molecular Medicine 1 - Monogenetic diseases; in WS: 301586-1 VO
    Molecular Medicine 2 - Molecular aspects of medical research)
  ❖ Other groups at Max Perutz Labs
  ❖ Groups at other institutions, e.g., VBC (IMP, IMBA), MedUni Wien, AKH,
    University of Vienna, TU, VetMed, BOKU, IST, …
  ❖ Groups at universities or scientific institutes in other cities or even abroad
  ❖ Companies

Note: It is strongly advised to clarify matters of confidentiality before-hand
(epecially when doing a Wahlbeispiel in a company), since after the
Wahlbeispiel a report has to be submitted. → Confidentiality agreement?
• **When?** Wahlbeispiele can be performed anytime during the year (also during vacation times).
• Wahlbeispiele are always a personal agreement between a group leader and a student.

**How to find a Wahlbeispiel?**

• Look for suitable groups according to your interests, suggestions by fellow students etc., check websites of institutions / groups.
• Contact the group leader (by e-mail or personally) and indicate your interest for a Wahlbeispiel.

**Registration of the Wahlbeispiel**

• If you have been accepted by a group, please register the Wahlbeispiel with me **before** you start the Wahlbeispiel.
• Use the form “**Wahlbeispiel Molekulare Medizin - Anmeldung Teil 1**“, found on the MolBio website (under Molekulare Medizin):
  
  https://molekularebiologie.univie.ac.at/formulare/wahlbeispiele/
• The form has to be filled completely and signed by the group leader.
• Mail the form to me: **n-erwin.ivessa@meduniwien.ac.at**

**Registration cont‘d on next slide**
Registration of the Wahlbeispiel, cont’d

- Please send me also a short outline of the planned Wahlbeispiel (1 page; topic, planned mini-project, methodology). **Exception:** Wahlbeispiele with groups at the Max Perutz Labs, and those of lecturers of MolMed1 and MolMed2.
- A registration in u:space / univis is (was) possible, but not a prerequisite for doing a Wahlbeispiel.

Timing of Wahlbeispiele

- Please make an effort to perform your Wahlbeispiele **before** you start your Master’s thesis
- Special regulations for **Wahlbeispiele in context of Großpraktikum / Master’s thesis:**
  - It is mandatory that you perform your Wahlbeispiel **before** Großpraktikum / Master’s thesis.
  - The same rules apply for these Wahlbeispiele as for all other Wahlbeispiele; e.g., registration with me, requirement of a proper report (protocol) within the deadline etc.
  - Wahlbeispiele performed in the context of Großpraktikum / Master’s thesis **cannot** be acknowledged retroactively (except as WZB).
Mitbelegung (Co-Registration) at MedUni Wien

All students who do Wahlbeispiele should have a Mitbelegung (Co-Registration) at the MedUni Wien. This is independent from the place / institution, where the Wahlbeispiel is actually performed. In general, there should be one Mitbelegung per Wahlbeispiel. Here the guideline:

Case A: You have not yet applied for a Mitbelegung at MedUni → steps 1 and 2.
Case B: You have already a Mitbelegung at MedUni → step 2.

Step 1: Mitbelegung (Co-Registration) at MedUni Wien

Info from the MedUni see:

https://www.meduniwien.ac.at/web/studium-weiterbildung/anmeldung-zulassung/mitbelegung/

It is necessary to fill the form in the link above. You have to enter at least one number of a course that you want to attend or for which you want to take an exam on the form. For the number, please, write me an e-mail:

n-erwin.ivessa@meduniwien.ac.at

The numbers may differ, since we share the work load among colleagues in our center.

Mitbelegung cont’d on next slide
Mitbelegung (Co-Registration) at MedUni Wien, cont’d

You also have to state a reason, e.g., "Die LV wird an der Uni Wien nicht angeboten."
– “The course is not offered at University of Vienna.”

According to information of the MedUni Studienabteilung:
With just one co-registration students may take also other courses at MedUni.

How to obtain a signature:
- Option 1: When you send me the application to a Wahlbeispiel, I will send you back a form for MedUni that has my signature on it and that is accepted by MedUni Studienabteilung.
- Option 2 (if the course you want to attend at MedUni is not related to Wahlbeispiele): E-mail the filled form mentioned before (link on previous slide) to the SPL for signature and Uni Wien seal:
  barbara.hamilton@univie.ac.at or angela.witte@univie.ac.at

Then mail either form to the MedUni Studienabteilung (see also link on previous slide) – photos made with mobile phones are acceptable, if the information is legible:
  studienabteilung@meduniwien.ac.at

Attention: In WS the Mitbelegung at MedUni is only possible until November 30!

Mitbelegung cont’d on next slide
Mitbelegung (Co-Registration) at MedUni Wien, cont‘d

Step 2: Registration for a course in MedCampus
When you have got the login details for MedCampus from the MedUni, please, register for the course that I have told you in step 1.
If you have a Mitbelegung already, please, write me an e-mail to obtain the number:
nerwin.ivessa@meduniwien.ac.at
The numbers may differ, since we share the work load among colleagues in our center.

If you miss the Mitbelegung (because your arrange your Wahlbeispiel late in the WS), you can make it up in the next semester (there is some flexibility).
After completion of the Wahlbeispiel

Please send me by e-mail (n-erwin.ivessa@meduniwien.ac.at):

- Your **Wahlbeispiel report** ("Protokoll") as **pdf**; please send me only the final version that was seen and approved by your supervisor and group leader. If the document is very large (> 3 MB), please, use a platform or “cloud”, from where it can be downloaded; e.g. dropbox, google drive etc. See also next slide!
- An Evaluation of your Wahlbeispiel; for this use the form **“Wahlbeispiel Molekulare Medizin - Protokoll Teil 2“**, found on the MolBio website (under Molekulare Medizin):
  - [https://molekularebiologie.univie.ac.at/formulare/wahlbeispiele/](https://molekularebiologie.univie.ac.at/formulare/wahlbeispiele/)
  - This form needs to be completely filled with all dates required. It should contain the evaluation and needs to be signed by the group leader.

- **Deadline for turning in the materials with me:** 4 months after completion of the lab work (this is just a guidance value). Extensions due to the Covid-19 situation possible.

**Grading of the Wahlbeispiel**

- First of all, I will consider the evaluation of the group leader.
- I will also consider the quality of the Wahlbeispiel report that I obtain.
- Under certain circumstances, I may change the suggested grade in either direction. In this case, the student will obtain feedback from me explaining the reason(s).

2021-10
What is a lab report (“Protokoll“) and what should it contain?

Note: The lab report should be written in agreement with the supervisor and group leader.

• For a 4-week Wahlbeispiel: approx. 15 – 20 pages
• For an 8-week Wahlbeispiel (2 Wahlbeispiele combined): approx. 20 – 30 pages
• Structure as a thesis or paper:
  ➢ Title page with name, Matrikelnummer, title of the project, lab (supervisor, group leader), date, duration
  ➢ Summary (Abstract), not more than 1 page
  ➢ Introduction
  ➢ Specific aims
  ➢ Materials and Methods (detailed!)
  ➢ Results, including figures (each figure requires a figure legend)
  ➢ Discussion (may be short)
  ➢ References (using an appropriate style of referencing)
• Experiments should be comprehensible:
  ➢ chronological order; or better:
  ➢ order by topic
• Please, no “papers“ (are too much condensed); no teamwork with other Wahlbeispiel students

This seminar (PVP; 1-h, 1 ECTS) can be done anytime during the year; however, it will always be acknowledged for the WS, when it is officially offered (LV-Nr.: 301706-1).

For PVP a powerpoint presentation of 15 min or more a student has given can be used. In this presentation, a concept for a project (from its intellectual point-of-view) as well as strategies how to realize the project (methods, experimental planning, expected outcome, pitfalls) should be given.

It is reasonable to do PVP in conjunction with one Wahlbeispiel, which summarizes the contents of the Wahlbeispiel (Introduction with topic, project planning and outline, results, discussion, outlook). The presentation could be done in a group meeting, where the Wahlbeispiel is performed (if possible).

For acknowledgment of PVP, please send me (n-erwin.ivessa@meduniwien.ac.at):

- Your presentation as ppt or pdf. If the document is very large (> 3 MB), please, use a platform or “cloud”, from where it can be downloaded; e.g. dropbox, google drive etc.
- An evaluation of your presentation, signed by the group leader (or by mail from her / his e-mail account). The evaluation should contain the date of presentation and a suggested grade.
What should a presentation contain?

Note: The presentation should be assembled in agreement with the supervisor and group leader.

• Title slide with project title, name, …
• Introduction – topic, project
• Specific aims
• Experimental planning, methodology
• Results (with figures)
• Discussion / conclusion
• Problems? Pitfalls? Alternatives?
• Outlook
